## ABOUT US

### PT. GRHA MINA WIJAYA

Our company was founded in 2019 in Denpasar City, Bali. We started operating in 2020 as a company that focuses on the fisheries sector, especially processing fresh and frozen fish. We offer various species of marine fish from Indonesian waters with various cuts and sizes that can be adjusted to suit your request.

The quality of products and services for customers is always our main concern, therefore, we implement various standard marine fish management programs both on a national and international scale starting from catching or procurement, processing, storage to the final product which is designed to provide guarantee of good product quality and safety for consumption.

Our company has implemented a quality assurance and food safety system (Good Manufacturing Practice and Hazard Analysis Critical Control Point) which has been certified by the local competent authority.

In this way, we will prepare good fishery products, so that consumers can enjoy them directly or as further processed ingredients
